Item Reference: SA1071352

Date of manufacture: 19th Century

Description

An interesting set of four silver Maltese silver toggle buttons. Three are marked with an F which in my reference book indicates they are of French silver stand the fourth is marked CO with a further mark which I cannot make out. I believe these date to circa 1800. There is one tiny filigree flower missing on one of them and the toggle on one button is slightly shorter. L x 3 6.5 cm L x 1 6 cm
