Description

A superbly detailed high quality cast solid silver wax seal. It is hallmarked with the 800 standard mark. I would date it to c1910. It has been superbly cast in the form of Napoleon. It is in superb condition being free from dings splits and repairs, no initials to the end but it will need to be smoothed off if used. It measures approx. 2.5 inches (6.5cm) tall by 0.75 inch (1.8cm) across the base and weighs 50 grams. A very high quality unusual piece.
