Description

1940s silver Smiths pocket watch. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has a long service inscription from ICI, dated 1945. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1946, with a case maker's mark for the case maker Aaron Dennison. The case is in good condition. The glass lens is in lovely condition. The signed painted dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There are some age related cracks to the paint finish. The watch comes in a new presentation box.
