Description

This is a superb insulated and lidded ice bucket. Manufactured by “Garrards” Regent St, London. Often identified as the queens jeweller, but always also synonymous with quality luxury goods. The ice bucket is complete with inner ice cage and lid. It’s a perfect size being little over 16 cm tall With overall maximum diameter of 20cm Apologise my photographs aren’t the best because the plating is so good the mirror image simply reflects everything.! The upper edge of the bowl and handles have gadroon style decoration. Shown clearly in the photographs.
