Description

A good example of an antique giltwood table lamp, dating from the early 20th century. It is a classical design with three scrolled feet and ornate carvings on the stem. The bulb holder sits atop a faux candle and the whole piece has a lovely patina. It is in good condition and displays well. There are some minor areas of wear and small losses of paint and a couple of historic worm holes but nothing detrimental and it displays well. It has been PAT tested and rewired to modern standards to take a standard bayonet bulb. Approximate Measurements : Height : 22" / 56cm Diameter of Base : 6" / 15cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
