## Description

Gents Bulova automatic wrist watch, 1960. The watch has a 23 jewel automatic movement, calibre 11 AFAC, which is working nicely. The movement is fully signed and it has the date code for 1960. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel. The front and sides are in good condition. The screw-on case back has some scratches where a tool has slipped in the past. The inside of the case back has the same date code as the movement. The lens is in good condition, just a couple of light marks towards the edge but barely visible to the naked eye. The signed dial is in its original finish with original hands and centre seconds hand. A new leather strap has been fitted. The watch comes in a new presentation box.
