Description

Mid-size 1930s Bernex wrist watch. The watch has a Swiss seven jewel hand-winding movement which is working nicely. The watch measures 31mm diameter excluding the later period winding crown and the fixed wire lugs. The case is nickel and it is in good condition. It is signed inside the hinged case back with the Bernex name. The lens is in good condition too. The dial is in its original finish with original hands, a subsidiary seconds dial and outer minute markers. The dial has a sunburst pattern, the finish has darkened with age but still easy to read, and it has a charming appearance. Original blued steel hands. A new leather strap has been fitted. The watch comes in a new presentation box.
