Record Dreadnought 'Trenton' pocket watch

Price

Sold**Item Reference: SA1077093****Date of manufacture: 1910**

Description

Record Dreadnought 'Trenton' pocket watch. The watch has a seven jewel stem-winding movement which is working nicely. The movement is signed Record Dreadnought and it also has the name Trenton, one of a number of model names used by the company. The movement is not original to the case, probably a more economical repair in the case of severe damage, such as water damage. The movement is protected by an inner dust cover which has a 1913 inscription from John Mares Ltd, a wholesale tailoring business based in Basingstoke. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Birmingham based case maker Aaron Dennison. Dennison produced cases for various watch manufacturers. The front and sides of the case are in good condition. The hinged case back has a pin prick "ding" and a couple of 1cm long rubbed areas towards the edge. The acrylic lens is in good condition. The signed dial has blued steel hands in the Breguet style, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
