Description

A very smart round dial Longcase clock. The dial isn't signed but based on the design of the case it is probably by a London maker. The case is in nicely figured mahogany and has a moulded trunk door and base. The good quality 8 day movement strikes the hours on a bell and has a smart 12" white painted dial. The dial has subsidiary seconds and date dials. The case is in good restored condition. The movement was serviced last year and has probably not seen much use since. Free local delivery (60mls), national and international delivery arranged at cost.
