Price

GBP 180

| USD \$245 | EUR 210

Item Reference: SA1079038

Date of manufacture: Pre 16th century

Dimensions

Height = 11 cm (4.3")

Width = 19 cm (7.5")

Depth = 8 cm (3.1")

Description

This exquisite small petrified wood specimen is a testament to nature's artistry and the passage of time. Polished to reveal its rich dark tones and intricate grain patterns, this piece retains its original petrified bark, offering a glimpse into its ancient origins. Mounted on a sleek perspex stand, it stands as a decorative statement that bridges natural history with modern design. Dating back to the Triassic period, approximately 120 - 240 million years ago, this specimen is not just a decorative item but a slice of prehistoric life. Its timeless beauty and geological significance make it a captivating addition to both antique collections and contemporary spaces, promising to enhance any interior with its unique character and historical charm. Whether placed in a study, living room, or office, it serves as a conversation starter and a daily reminder of the Earth's dynamic history. Height: 4 1/4 inches (11 cm) Width: 7 1/2 inches (19 cm) Depth: 3 inches (8 cm)
