Description

A Royal Worcester scent bottle made to celebrate Queen Victorias Jubilee in 1887. Silver topped marked for Birmingham, some small dents. No damage to the body, although there are so traces of blue on the reverse in between the design featuring the Rose, Thistle and Shamrock, maybe from some packing it had been stored in, I have not tried to remove it, but would probably remove quite easily. India, Canada, Australia all appear on the reverse. Registration mark on base. H 5.5 cm W 4 D 1.4 cm
