Description

Early 20th Century Hand Carved Folk-art Candle Stick A unique piece of early 20th Century folk art in the form of a hand carved geometric formed candle holder. Each section is individually placed to create this uniquely shaped object. Dimensions in inches: H 12" x W 5" x D 5" Age: Early 20th Century Origin: Unknown Condition: Good This object is in overall very good condition considering its age, it has some light damage to the bottom base as shown and looks like it may have been dropped at some point as the damage has flattened the edge. A deep natural patina is also present, without any breaks but has a hairline crack the top section of the base which doesn't affect the item in anyway. We strongly suggest reviewing all the photos provided as part of this advert and propose questions where sections are unclear to avoid disappointment upon purchase. A direct message usually takes 24 hours to answer. For multiple years we have sold antique items globally, please expect our items to show relevant age and natural wear, Items only restored due to breaks and major loss, and we always stipulate this in our condition report.
