Description

Gents J W Benson silver wrist watch, 1936. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 32mm diameter excluding the later winding crown and the fixed wire lugs. The case is silver and there are hallmarks inside the hinged case back for Birmingham 1936 together with a case maker's mark for Aaron Dennison, the prolific watch case maker based in Birmingham. The case is in good condition, just general light surface marks, nothing too serious at all. The glass lens has light scratches, and a chip underneath the edge, but not too detrimental at all. The signed dial has some hairlines over number 9 but they are faint. Blued steel hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
