Dimensions

Height = 226 cm (89.0")

Width = 51 cm (20.1")

Depth = 24 cm (9.4")

Description

A handsome Geo III Longcase clock by Henry Baker of Malling. He is listed as working there from 1730 to 1777. The case is in nicely figured mahogany, it has retained its original finish and is a lovely colour. It has a good quality 5 pillar, 8 day movement that strikes the hours on a bell. It has a smart brass dial with silvered chapter ring and gilt spandrels. It also has a subsidiary seconds dial and date indicator. It has its original brass cased weights which have been painted gold at some time in the past. The case is in good unrestored condition but does have some minor chips and cracks associated with age and use. The movement is in working order and keeping good time. Free local delivery (60mls), national delivery arranged at cost. Offered as a trade sale
