Description

Antique silver Hebdomas Patent pocket watch, 1915. The watch has a stem-winding movement which is working nicely (over a period of seven days, it lost 12 minutes). The watch measures 47mm diameter excluding the winding stem and loop. The case is silver and is hallmarked inside the case back for Birmingham (import mark), 1915. The case is nicely decorated and in good condition, just gentle unevenness in places, nothing too serious at all. The acrylic lens is in lovely condition. The signed dial with the unusual green enamel telephone dial style numbers, is in beautiful condition. Exposed balance and regulator synonymous with Hebdomas. The watch comes with a silver chain, 31cm long including the T-bar and the clasp. The T-bar is hallmarked for 1925, the clasp for 1924. Each of the links has the silver lion mark but some marks have rubbed. There is also a silver and enamel fob from West Bromwich & District Cricket League. The watch and chain come in an antique presentation box.
