Description

A lovely example of a flame shaped glass pendant light dating from the early 20th Century . The shade is opaque and it has a good quality brass gallery. It has been rewired to modern standards with a bayonet bulb holder. The light is ready to install but we always recommend that the light is checked and wired by a professional electrician. The light is in good condition with no major damages apart from a few small nibbles around the rim and the gallery has a lovely patina. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £15
