Description

A lovely pine bank of drawers dating from the late 19th/ early 20th Century. There are 12 drawers, each with brass ring pull handles and it stands on turned bun feet. The drawers are sectioned inside, some into two halves and some into four. It was probably originally used in a shop or workshop and has been cleaned and given a light coat of wax to retain its lovely aged patina. It is in good condition for its age and displays well. The inside of the drawers are generally clean and tidy with a few old stains and they open and close smoothly. There have been some old repairs and there are signs of age and use, some surface marks, knocks and minor chips but nothing untoward. There are some minor signs of worm but it is all historic and we have treated it as a precaution. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
