Depth = 10 cm (3.9")

Description

This is the rare Omega Constellation model reference 168.001 Incredible condition, professionally serviced with 12 month warranty. The diameter is 37mm excluding the crown which makes this a jumbo and the largest vintage Omega Constellation and one of the rarest, this model was only ever sold in Japan and Singapore it is rarely seen outside of the Far East. The movement is the calibre 561 Chronometer grade fully automatic with 24 jewels, Omegas highest grade movement. The dial is perfect having been professionally restored at some time in its life, the only work we have done to this watch is to service the movement and give the case a thorough ultrasonic clean and a light polish. The gold Observatory Medallion to the case back is detailed and crisp, all of the eight stars are sharp and clear indicating that its had a very pampered life. As you would expect the watch is fully marked on the dial, movement and case. Overall this watch is in superb condition It has clearly been seldom worn and an absolute must for Omega collectors. It will come with both brown and black premium straps and a spring bar tool to swap them as you wish. It is very rare to find this watch i...
