Date of manufacture: Edwardian

Description

A superb solid silver Edwardian twin handled bowl. It has a deep circular bowl with a smooth top band above a pattern of smooth and ribbed panelled segments which converge to the base. This detail creates a fantastically reflective interior. The bowl has a pedestal base with a rounded rim and two looped handles which branch out at the top, tipped with leafy motifs. The bowl has a good weight to it and is of lovely quality. It would make a super sugar or bon bon dish, and has the proportions to make a splendid sporting trophy. Condition: In superb antique collectors condition. Hallmarked James Wood & Sons, Birmingham 1908 on the outside of the bowl. Measurements: Height: 8.5 cm. Diameter of bowl: 10 cm. Width handle to handle: 15 cm. Weight: 183 grams. All measurements are approximate.
