Antique Waltham pocket watch, 1903, Bolton

Price

Sold**Item Reference: SA1085170****Date of manufacture: 1900**

Description

Antique Waltham pocket watch, 1903, Bolton. The watch has a 15 jewel grade 420 stem-winding movement which is working nicely. The movement is good quality with a Church 1892 patent regulator, Breguet hairspring and nicely patterned plates. The movement is fully signed and it has the serial number 12,181,000 which dates it back to 1903. The movement is protected by an inner hinged cover which has been engraved with the name and address of a previous owner, probably the original owner. There is some slight unevenness to this inner cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition, just the odd small mark. The back of the watch has the owner's initials, which tie in with the name on the movement cover. The glass lens is in good condition, just a couple of small marks and a small chip to the bevelled edge. The signed dial is in good condition, just a faint 5mm hairline between 3 and 4 but it is difficult to see with the naked eye. The watch comes in a new presentation box.
