Description

Antique Waltham half hunter pocket watch. The watch has a good quality 16-jewel grade K stem-winding movement which is working nicely. The movement has a Breguet hairspring, Church 1892 patent regulator and screw-set jewels in gold settings. The movement is fully signed and it has the serial number 6723323 which dates it back to 1899/1900. The movement is protected by an inner hinged cover. The watch measures 42mm diameter excluding the winding stem and the loop so it is smaller than a standard 50mm pocket watch. The case is 10ct gold filled and was made by the English watch case maker, Aaron Dennison, supplier of cases to Waltham UK. The front cover has a small central lens surrounded by enamel filled roman numerals. The case is in good condition, just a couple of small indentations to the back, and some rubbing on the sides. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition (some reflection showing in the photos). The signed dial has blued steel hands, including the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation bo...
