Description

A beautiful rare solid silver Indian, or most like Ceylon, table box. It is unmarked but tests as high grade silver. I would date it to c1920. It has been beautifully hand made being embossed and chased with a elephant to the lid and base. It is in superb condition being free from dings holes and repairs. It measures approx. 3 inches (7.6cm) across by 1.75 inches (4.5cm) wide by 1.25 inches (3.2cm) tall and weighs 72 grams. A superbly designed beautiful example.
