A Stylish 18ct Gold Feather Brooch With Twin Textured Design

Price

Sold

Item Reference: SA1088913

Date of manufacture: 1950

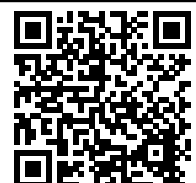

Description

We are delighted to offer this stunning vintage 18ct gold feather brooch. Striking in both colour, design and presence, this brooch presents a wonderful combination of stylish design and intricate goldsmithing. Twin feathers overlap in a fluid and naturalistic manner making it contour as if it were moving or ruffled by the wind. Furthermore, each feather has been carefully embellished with different matte and glossy textures further highlighting and reflecting the gold tone depending on the angle of viewing/lighting. The glossy section of the front wing truly comes to light upon wearing under natural sunlight - this seemingly insignificant yet impactful design choice separates it from the background, adding a layer of depth and sophistication which would otherwise likely go unnoticed. Such stylish design and regal tone culminates in a splendid and versatile brooch that can be worn with an array of clothing, whether be it a shirt in summer or a coat lapel in the winter. A wonderful example of fine goldsmithing design that is effortlessly elegant and immediately elevates the overall opulence of your outfit - a perfect accoutrement for the discerning individual. M...
