Dimensions

Height = 19 cm (7.5")

Width = 30 cm (11.8")

Depth = 8 cm (3.1")

## Description

In the 1930's Smiths Sectric produced a range of high end electric clocks with a distinctly Art Deco feel to them. This handsome chap is a surviving example, in a gorgeous coral blue. The number dial is brass, as are the hands, feet & base. He is virtually silent, and keeps remarkably good time. This clock is an absolute delight. This glamorous clock features a brass bezel with fretted out numerals and a mirrored blue glass dial. The clock as with all our clocks are fully tested and restored by our horologist so comes to you in full working order. Runs on electric so no ticking sounds or winding required. Condition is as good as one could expect from something nearing 90 years old. A brand new blue twisted fabric 2 core electric cable, and a matching blue plug have been added. FREE UK mainland delivery
