Description

A good example of a small turned mahogany table lamp dating from the early to mid 20th Century. It is nicely proportioned with a lovely rich colour and stands on small block feet with a heavy weighted base. It has been PAT tested and rewired to modern standards to take a standard bayonet bulb. The lamp is in good condition. There are some minor signs of age and use but nothing detrimental and it displays well. Approximate Measurements : Height : 16 1/2" / 42cm Width of base : 5 1/2" / 14cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
