Description

Gents antique silver wrist watch, 1924. The watch has a Swiss ten jewel hand-winding movement which is working nicely, the movement is probably by the Swiss ebauche maker A Schild. The watch measures 33mm diameter excluding the winding crown and the fixed wire lugs. The case is silver and is hallmarked inside the hinged case back for London (import mark), 1924, with a mark for the assay agent George Stockwell. The case has a small bruise to the side, and slight unevenness to the back. The lens is in good condition. The dial has a few cracks but they are faint. Original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
