

SA1092505

Antique silver half hunter wrist watch, 1916

Price

Sold**Item Reference: SA1092505****Date of manufacture: 1910**

Description

Antique silver half hunter wrist watch, 1916. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 34.5mm diameter excluding the winding crown and the fixed wire lugs. The case is silver and there are hallmarks inside the screw-on case for London (import mark), 1916 together with a mark for the assay agent George Stockwell. There is also a brevet (patent) number for a 1915 application by Charles Zurbuegg which relates to the design of the opening case front. The case is in good condition. The front cover has a central lens surrounded by enamel filled Roman numerals. There is some enamel loss in places. The front cover is opened by pressing the button in between the lower lugs. Inside, there is a glass lens which is in good condition, as is the dial. The red number 12 is a nice feature. The hands are period replacements. A new leather strap has been fitted. The watch comes in a new presentation box.
