Description

A highly collectable item. The Belouch were famed for their use of dark, moody colours and this is a great example of that. They could pick out a few details in natural ivory and against the dark, rich colours these details really jump out, as you can see with the central peacock, around which the others revolve. In great condition and with all natural dyes, this is a great addition to any tribal art collection. 2'4" x 2'2"
