Description

Antique silver Syren pocket watch and chain. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has light surface marking. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for London (import mark), 1919. The front and sides of the case are in good condition, some unevenness to the back of the watch. The glass lens is in lovely condition. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a later silver double albert, with each chain measuring 24cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
