Description

A superb set of antique mahogany and leather library steps in the Georgian style. They were made in England, and date from around the 1930's period. The quality is fantastic, they are very useful for reaching high shelves, and also make great side tables / decorative items. The mahogany frame is finely constructed, and the steps have inset tooled leather surfaces. We have had these recently re-polished, the condition is excellent for their age. The mahogany has a wonderful patina with some minor marks and bumps remaining under the polish here and there, commensurate for age. The brass topped pole that stands above the steps can be lifted out, so this breaks down into a smaller size for ease of transport. Width – 20 inches , 51 cm Depth – 20 inches , 51 cm Height – 64 inches , 163 cm Height when dismantled – 38 inches , 96 cm
