Antique Swiss silver pocket watch and chain

Price

Sold**Item Reference: SA1094265****Date of manufacture: 1920**

Description

Antique Swiss silver pocket watch and chain. The watch has a 10 jewel Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some unevenness. The watch measures 47mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case back for Edinburgh (import mark), 1925. The front and sides of the case are in good condition, just a slight bruise to the side. The case back has engine turned detail with a vacant cartouche to the centre. There is some unevenness to the back of the watch. The glass lens is in lovely condition. The double sunk dial looks good to the naked eye... if viewed closely, there are a couple of short faint hairlines coming from the centre. Original blued steel hands. The watch comes with a single silver chain, 34cm long including the T-bar and the clasp. The T-bar is hallmarked for 1917. Each of the links has the lion silver mark. There are marks on the clasp but they are difficult to read. The watch and chain come in a new presentation box.
