Antique Campaign Round Basin with Triform Stand

Price

GBP 750

| USD \$1,023 | EUR 875

Item Reference: SA1094690

Date of manufacture: 19th Century

Description

A very rare and unusual survivor of the early to mid-19th century. This three column mahogany military washstand and bowl is very solid with well turned full columns, a one piece middle shelf and a thicker tri-form veneered base on bun feet, also it doesn't break down. The large and deep china bowl with brass plug and drain is in very good condition with no chips or cracks, it was probably replaced in the 1900's/1920's when it appears to have been adapted maybe for home use. Showing the usual knocks and scuffs associated with a piece of furniture that has travelled. This piece would make an exquisite complement to a vintage-style bathroom in both period and contemporary homes. Other recommended use can be: Ice Bucket or Wine cooler for bottles of Champagne and white wine! Size 80cm H x 61cm Diam.
