Antique Waltham pocket watch and chain

Price

Sold**Item Reference: SA1095262****Date of manufacture: 1920**

Description

Antique Waltham pocket watch and chain. The watch has a grade 620 15-jewel stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 9,585,941 which dates it back to 1920. The watch measures 57mm diameter excluding the winding stem and the loop, so a little larger than a standard 50mm pocket watch. The case is nickel and was made by the Dennison Watch Case Company, an English company and supplier of cases to Waltham UK. The case is in good condition, a small indentation to the back and light surface marking, nothing serious at all. The glass lens has a couple of short light scratches, not very noticeable at all to the naked eye. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes on a single graduated chain, 30cm long including the T-bar and the clasp. Also included is a double sovereign case for half and full sovereigns. The watch and chain come in a new presentation box.
