Description

A good example of a silver mounted leather wallet by Finnigans of Manchester. The wallet itself is made from the finest brown crocodile leather with silver mounted corner pieces. It closes on a press catch and has two internal sections. The silver corners are clearly hallmarked for London, 1901, Julian Coppo & Co. It is in good condition for its age. It has been well used and there is some wear and minor losses to the leather including and a couple of old repairs but overall it displays very well with a nice aged patina. The interior is clean and tidy and the silver corners are in good order. It has been gently cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £6 Rest of the World £25
