Description

Antique Waltham pocket watch, 1908. The watch has a 15-jewel grade 220 stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 16,634,837 which dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 46mm diameter excluding the winding stem and the loop. The case is gold filled and was made by the Crescent Watch Case Company who purchased the case making portion of the American Waltham Watch Company. The case is in beautiful condition, and has the initials of the original owner to the back. The acrylic lens is in lovely condition. The signed dial is in lovely condition with blued steel hands (one hand appears to be a period replacement). The watch comes in a new presentation box.
