Description

Antique George III Mahogany Chest on Chest A fantastic example of a Georgian Chest on Chest. We are delighted to bring to you this fine example of a very rare George III (circa 1770) 8 deep drawer Mahogany chest on chest which comes apart into 2 parts for easy transportation. The top section consists of an attractive dental moulded cornice to an arrangement of 2 smaller drawers over 3 descending drawers. The bottom section consists of 3 vast descending drawers which stand on its original solid mahogany shaped bracket feet. The chest also has beautifully ornate fret-worked plate brass dropper handles and is complete with matching escutcheons in-front of their original fully operational warded locks throughout complete with its original key. One of the brass escutcheons is missing the lower part and 2 others have been re-made at some point by a previous owner, we have left this untouched as we feel that is part of its 250+ years of history. This well made chest on chest is in a fantastic original condition featuring its beautiful warm colour and French polished finish. The drawers are in great condition, the drawer runners have been re-built as necessary so are smooth...
