Description

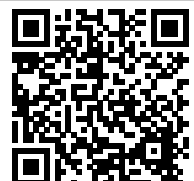

A smart and extremely well made antique mahogany leather top drum table. This was made in England, we would date it from around the 1910-20 period. It is a great size and is of superb quality. The octagonal top revolves on the base, it has cross banded border and an inset leather surface with gold tooled edges. There are four drawers with turned mahogany handles and a locking key. This stands on a central column base with splayed and reeded legs, terminating in brass hairy paw casters. We have had this re-polished, the condition is excellent for its age, with some minor wear remaining beneath the polish here and there. The top can lift off the base for ease of transport. Width – 35 inches , 89 cm Depth – 35 inches , 89 cm Height – 29 inches , 74 cm
