**Date of manufacture: 1920**

Dimensions

Height = 80 cm (31.5")

Width = 32 cm (12.6")

Depth = 18 cm (7.1")

## Description

A very fine example of these ever popular wall clocks. Made by the World renowned maker JUNGHANS, this clock strikes on the half-hour and the hour. Importantly, it strikes on metal rods, giving a very clear and distinct, resonating tone. It is fitted with a STRIKE/SILENT facility. The silvered dial has black, Arabic numerals and a brass surround, with a convex glass. The golden oak case retains it's original, beautifully French-polished finish with a lovely, age related patina. The lower half of the fully opening door has astragal glazing with bevelled glass. The 8 day movement has just been fully overhauled by our BHI registered horologist and carries our usual 12mths full parts and labour guarantee. A very smart, quality clock indeed.
