Description

Antique Zenith pocket watch, 1929. The watch has a good quality stem-winding movement which is working nicely. The movement is signed with the Zenith name and it has the serial number 2,913,182 which dates it back to 1929. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case Company, an English manufacturing company and supplier to various watch makers. The case is in very nice condition. The glass lens has a couple of small marks, not too detrimental at all. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The dial is signed Zenith just above the sub seconds dial, leaving the top area blank for the retailer to add their details. The watch comes in a new presentation box.
