Description

Hi I have for sale a very heavy solid miniature ormolu bronze mantle clock with stunning enamel inlay, made in France around 1880 -1900, this is a very rare style mantle clock in very good original condition the size of a standard carriage clock running via a platform fully restored movement. The Case The case is in solid bronze with stunning inset gilded flower swags in fact everywhere you look something is happening, this beautiful clock stands 22cm high x 12cm wide with a depth of 7cm. The Dial The dial is in original condition in white porcelain with again hand-painted swags of flowers housed within a heavy gilded brass bezel with white stones around the whole bezel, the clock also retains its original gilded ornate hands. The Movement The movement is an eight-day time only, the movement has been fully serviced so keeping a great time over the eight days. Overall a very beautiful and very heavy top-end quality French mantle clock by a quality French maker that looks stunning on display and contains all of its original features this is quite a rare find these days find another like this one only for the best collections. Will post worldwide.

Internal Ref: Ormolu T1/C
