Description

Tilt-Top Table & Screen - Needlepoint - Height Adjustable A rather charming piece of furniture with a few tricks up it's sleeve! A mid Victorian tri-legged mahogany base with attractive turnings is complete with a height adjustable internal pole with angled head. To the upper of the head is fixed a later frame containing needlepoint under glass. Useful as an occasional table, side table or stand, but with the added benefit of being able to function as a screen with height and angle adjustment. When set at any point between the horizontal and vertical the table becomes a handy angled work top as the perimeter forms a 'tray'. Very useful for reading, writing or enjoying a jigsaw puzzle. This versatile item of furniture benefits from excellent brass fittings and is in great order throughout. Overall a lovely display item and good fun too.
