Dimensions

Height = 30 cm (11.8")

Width = 34 cm (13.4")

Depth = 13 cm (5.1")

Description

Rare antique early 20th century small gas radiator,c1920. This looks to be a fully functioning piece with gas pipe and valve attached and a row of burners but given its small size I would think this is an advertising/salesman's demonstration piece. The item is extremely well made with very decorative pierced cast iron metalwork topped with brass balls. The internal burner shelf has a ceramic coating and it stands on raised legs. It is marked to the base and back 'British made' and several registration numbers - 365455 number 0.19 and 692754. It is also stamped Radiator Burner and what appears to be a makers name but because of the position it is difficult to read. Please refer to the detailed photographs and feel free to contact me if you would like to view the item or have any questions. Price includes FREE UK delivery, please contact me regarding international shipping. Suze: 34cm wide x 30cm tall x 13cm deep ,weight 4.2kg.
