Description

A superb miniature apprentice-made mahogany chest of drawers, dating from the late 19th Century. It is a charming piece with two short over three long drawers, each with their original turned wooden knobs. The chest itself is made from mahogany and stands on a traditional plinth base. It is very well made and each drawer is beautifully made with hand-cut dovetail joints. It is in good original condition. The mahogany has a wonderful aged patina and the piece is sturdy and the joints are strong. The drawers are clean and tidy and all open smoothly. There has been a small repair to one front corner and there are some general signs of age and use and minor marks and light knocks but nothing detrimental and overall it displays very well. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £15
