Depth = 43 cm (16.9")

Description

A wonderful original antique Victorian leather and mahogany metamorphic gout stool. This was made in England, it dates from around the 1880's period. It has a clever ratchet design, enabling it to raise up and be positioned at various angles. This was designed to be an adjustable foot rest to aid those with gout, it can also be raised up to the height of a chair and could be used as a desk chair or side chair. The condition is excellent, we have had the leather revived and hand coloured by our leather restorer. The mahogany legs have been re-polished, the brass casters are all in good order. Width – 64 cm , 25 inches Depth – 43 cm , 17 inches Lowest height – 51 cm , 20 inches Tallest height – 79 cm , 31 inches Tallest seat height – 56 cm , 22 inches
