Description

Antique Waltham pocket watch, 1902. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement has beautifully patterned plates, a Breguet hairspring for enhanced precision and it carries the serial number 11,333,953 which dates it back to 1902. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in lovely condition. The engine turned detail to the screw-on case back is still nice and crisp, with nice detailing to the centre. The glass lens is in lovely condition. The signed dial is in lovely condition. The hour hand is a period replacement. The watch comes in a new presentation box.
