Width = 8 cm (3.1")

Depth = 8 cm (3.1")

Description

Hi I have for sale an a1890s French carriage clock in stunning condition fully restored case and made in France with a fully functioning alarm feature. The Case The case is in solid heavy brass in the stunning heavy case and stands 16cm high x 8cm wide with a depth of 8cm it is in good condition with mint 4 mil thick bevelled glass sides/front/back door and top viewing glass. The Dial The dial is in white porcelain with black Arabic numerals set off by the original fine black spade hands and housed in a gilded mask with the alarm dial below. The Movement The movement is an eight-day time-only plus alarm; the movement has been fully ultrasonic cleaned and then oiled so keeping a great time over the eight days via the jewelled silvered escapement to the top. A key is included. Overall a very beautiful quality carriage clock by a quality maker that looks great on display and contains all of its original features this is quite a rare find these days. The photos do not do this stunning clock any justice. I will post worldwide.
