1930s Cyma full hunter pocket watch

Price

Sold**Item Reference: SA1104148****Date of manufacture: 1930**

Description

1930s Cyma full hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has a small "ding". The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold filled. It has engine turned detail to both the front and back of the case and it is in good condition with just a couple of minor "dings", nothing too serious at all. The winding crown pushes in to release the front cover... it opens a little further than 90 degrees. Inside, there is an acrylic lens which is in good condition. The dial is in lovely condition with blued steel hands (the hour hand is very slightly out of shape), a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
