Description

Antique Goliath pocket watch and chain, circa 1910s. The watch has a nicely jewelled stem-winding movement which is working well. The movement is protected by an inspection lens and also an inner hinged cover. The watch measures 66mm diameter excluding the stem and the loop so it is larger than the standard 50mm pocket watch. The nickel case has light surface marking from use but overall it is in nice condition for a 1910s piece. The watch has a gold inner bezel around the lens. The acrylic lens is in good condition. The enamel dial is in nice condition with original pin-set blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain which measures 31cm long including the T-bar and the clasp. There is also a fob in the form of a devotional medal, The Miraculous Medal, sometimes known as the Medal of Our Lady of Graces. The watch and chain will be sent in a new presentation box.
