Description

A very large and impressive silver plated charger. Bearing no makers marks but dating to c1860 and with an embossed and raised classical female figure to the centre. With detailed edging featuring cupids and classical scenes. A wonderful truly spectacular item. With a wall hanging hook to the reverse. Condition is very good overall with slight signs of copper bleed to the raised edges and very slight surface wear, but overall in fantastic condition. One of the bolts to the reverse has been replaced. Weight approx 2.4kg. Diameter approx 50cm
