Description

Antique goliath pocket watch and chain. The watch has a good quality gilt stem-winding movement which is working nicely. The movement is covered by an inspection window, and also an inner hinged cover. The watch measures 67mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just light surface marking, nothing serious at all. The thick glass lens has minor marking but all very acceptable. The dial has its original pin-set blued steel hands, a subsidiary seconds dial and outer minute markers. There are a couple of hairlines but they are faint and you have to look quite closely to see them. The watch comes with a single chain, 30cm long including the T-bar and the clasp. There is also a fob which is free from inscriptions. The watch and chain come in a new presentation box.
